Discussion and Q&A  
with Julia Powell

Co-Producer of the Film  
following screening

How could it happen that America and the West stood aside and did nothing to stop the slaughter of 800,000 human beings over 100 days? On the 10th anniversary of the 1994 Rwanda genocide, the story of those who participated in the world's failure to act, those few who stood up and tried to save lives, and all who are still deeply haunted by what they did.

## Press Reaction:

### Philadelphia Daily News

Ellen Gray

*"Ghosts of Rwanda' doesn't lay any ghosts to rest, or suggest any easy solutions. It's only guaranteed to haunt us, too. As well it should."*

### The Washington Post

Lynne Duke

*"Perhaps the most comprehensive documentary look at the genocide, it is a chronology of events before and during the killing."*
